

III. INTERNATIONAL EURASIAN CONGRESS OF HEMATOLOGY PROGRAM

17-21 OCTOBER 2012

17 October 2012 Wednesday In memory of ATILLA YALCIN -Special Session-

16:00-16:30	Opening Speech	Suleyman Dincer
Presidential Lectures	Giuseppe Saglio, Birol Guvenc	
16:30-17:00	Current therapeutical options for acute myeloid leukemia	Alan Burnett
17:00-17:30	How will change stem cell transplantation in the future?	Richard Champlin
17:30-18:00	The impact of genomics in clinical medicine: Tracing tumor mutational evolution through single cell genomics	Vera Donnemberg
18.00	Opening Cocktail	

18 October 2012 Thursday

Iron Overload

Moderators: İlhan Tezcan, Yurdanur Kilinc, Nazlı D. Kaya

09.00-9.30	Chelation therapy in 2012	Antonio Piga
9.30-10.00	Iron Overload in MDS	Eliezer Rachmilewitz
10.00-10.30	Transplantation in thalassemia patients	Gulyuz Ozturk
10.30-10.45	Coffee Break	

Myeloproliferative Disorders

Moderators: Osman Özcebe, Ali Keskin, Hakan Ozdogu

10.45-11.15	The complex biology of myeloproliferative disorders	Selim Yavuz
11.15-11.45	Conventional therapy of MPDs: When SCT maybe indicated?	Selim Yavuz
11.45-12.15	Molecular targeted therapy of MPDs	Mustafa Cetiner
12.30-13.30	Lunch	

Myelodysplastic Syndromes

Moderators: Ali Unal, Bulent Eser

13.30-14.00	Biological and clinical heterogeneity of MDS	Giuseppe Saglio
14.00-14.30	Current classification and risk scoring in MDS	Mehmet Ali Ozcan
14.30-15.00	Hypomethylation and hypomethylating agents in MDS	Aysen Timuragaoglu
15.00-15.15	Coffee Break	

Acute Lymphoblastic Leukemia

Moderators: Atilla Tanyeli, Yuri Chervonobab

15.15-15.45	Adult ALL therapy in 2012	Dieter Hoeltzer
15.45-16.15	Pediatric ALL therapy in 2012	Bulent Antmen

Chronic Myeloid Leukemia

Moderators: Cengiz Beyan, Salih Aksu

16.15-16.45	Present approaches to CML therapy in 2012	Naeem Chaudhri
16.45-17.15	Monitoring response of CML patients	Guray Saydam
17.15-17.45	What have we learned from CML that are useful for other hematologic malignancies?	Giuseppe Saglio

19 October 2012 Friday

Chronic Lymphocytic Leukemia and Indolent Lymphomas

Moderators: Şehmuz Ertop, Hasan Kaya

09.00-9.30	Current diagnostic stratification of CLL patients	Costas Stamatopoulos
9.30-10.00	Current therapy approaches for CLL	Emili Montserrat
10.00-10.30	Present approaches for indolent lymphomas	Berksoy Sahin
10.30-10.45	Coffee Break	

High Grade Lymphomas

Moderators: Ali Kosar, Osman İlhan

10.45-11.15	Diagnosis and risk stratification of high grade lymphomas	Filiz Vural
11.15-12.30	Chemotherapy-antibodies stem cell transplantation? How can we better combine all these approaches for high-grade lymphomas?	Burhan Ferhanoglu
12.30-13.00	Hodgkin Lymphoma	Alessandro Levis
13.00-14.00	Lunch	

Multiple Myeloma

Moderators: Rauf Haznedar, Orhan Ayyildiz

14.00-14.30	Conventional therapy of MM therapy in young and elderly patients	Ismet Aydogdu
-------------	--	---------------

14.30-15.00	When proteasome inhibitors in the therapy of MM?	Raphael Fonseca
15.00-15.30	Optimization of Bortezomib Treatment in Multiple Myeloma	Michel Delforge
15.30-15:45	Coffee Break	
Stem Cell Transplantation		
Moderators: Oktay Faradjov, Nikolai Tupitsyn, Vahap Okan		
15:45-16:15	Therapeutic use of non hematopoietic stem cells	Albert Donnenberg
16:15-16:45	Fungal infections in the immune-compromised patients: Which prevention? Which therapy?	Sesin Kocagöz
16:45-17:15	Bacterial and viral infections in the immune-compromised patients: Which prevention? Which therapy?	Gokhan Metan

20 October 2012 Saturday

Practical Approaches in Apheresis and Transfusion

Moderators: Ercument Ovali, Nilgün Sayinalp

09.00-09:15	Country-based experiences in apheresis, transfusion, stem cell collection and processing	Ferda Tekinturhan
09:15-09:30	Transplantation in Kirghizstan	Abdulhalim Rahimjanov
09:30-09:45	Bening Hematology in Uzbekistan	Saidcalal Bahramov
09:45-10:00	Current therapeutic options for low-grade malignant lymphomas	Oktay Faradjov
10.00-10:30	How to setup a modern blood bank? Equipment, personnel and management	Turker Cetin
10.30-10.45	Coffee Break	

Transplantation

Moderators: Suleyman Dincer, Deniz Sargin, Hamid Karimov

10.45-11.15	When RIC should be preferred in SCT?	Richard Champlin
-------------	--------------------------------------	------------------

11.15-11.45	Haploidentical or cord blood stem cells; which and when?	Hakan Goker
11.45-12.15	Management of graft-versus host disease in 2012	Ahmet Ifram
12.30-13.30	Lunch	
Selected Topics-I		
Moderators: Mustafa Solak, Oktay Faradjov, Bulent Zulfukar		
13.30-14.00	The benefits of prophylaxis from early age till adulthood in persons with hemophilia	Jan Blanty
14.00-14.30	Diseases and diagnosis of paroxysmal nocturnal hemoglobinuria	Ozlem Balcik
14:30-15:00	Current approaches for paroxysmal nocturnal hemoglobinuria – medical case treatment	Fuat Oduncu
15:00-15:15	Coffee Break	
Acute Myeloblastic Leukemia		
Moderators: Ahmet Ozturk, Mehmet Turgut		
15:15-15:45	Importance of genetic classification in the management of AML	Mustafa Yenerel
15:45-16:15	Best induction therapy in AML	Mehmet Yilmaz
16:15-16:45	Which AML patients should be transplanted?	Sevgi Kalayoglu Besisik
16:45-17:00	Coffee Break	
Selected Topics-II		
Moderators: Bülent Zülfükar, Birol Güvenç		
17:00-17:30	Thrombotic microangiopathy: Current knowledge and outcomes with plasma exchange	Joseph Kiss
17:30-18:00	Atypical HUS	Sibel Kabukcu
18:00-18:30	Rational use of medicines	Birol Guvenc
